

## STATE OF MICHIGAN DEPARTMENT OF LIFELONG EDUCATION, ADVANCEMENT, AND POTENTIAL

Lansing

GRETCHEN WHITMER
GOVERNOR

BEVERLY WALKER-GRIFFEA, Ph.D. DIRECTOR

## **MEMORANDUM**

**DATE:** March 12, 2025

**TO:** Early On Coordinators and Providers

**FROM:** Janet Timbs, Ed.S.  $\longrightarrow m$ 

Manager, Birth to Five Early Childhood Special Education

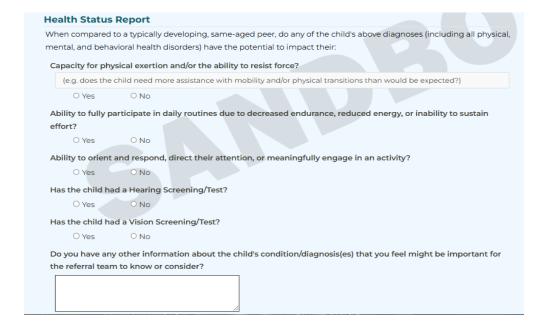

Office of Early Education

**SUBJECT:** Health Status Report

In collaboration with the Michigan Chapter of the American Academy of Pediatrics and the University of Michigan Youth Policy Lab, we are excited to announce an enhancement to the referral process for physicians.

To further streamline this process, we have updated the *Early On* referral intake form by adding questions that better capture the information necessary for determining eligibility.

Previously, *Early On* personnel would have to send a Health Status Request to physicians to complete and return after the local *Early On* office received their referral. To eliminate the need for this back-and-forth, we have integrated a new **"Health Status Report"** section directly into the referral form for physician-initiated referrals. See below:

In addition, if the child has had a **Hearing Screening/Test and a Vision Screening/Test,** a dropdown section will appear, prompting the physician to input the date of the screening/test as well as the results. See below:

This communication serves as confirmation from MiLEAP that the information collected in the revised *Early On* Referral Form "Health Status Report" section, if complete, will *replace* the need to send out a separate Health Status Request to physicians. Please ensure your staff who receive physician referrals are aware that the information collected through online referrals is now sufficient, and the Health Status Request form should no longer be sent to physicians for completion. This applies to physician referrals only. All other referrals will still need the information collected on the Health Status Request form.

Thank you for your collaboration as we work together to ensure efficient and timely responses to referrals, enabling children and families to receive services as quickly as possible. Your cooperation and attention to this important change are greatly appreciated!
